DETAILED ACTION

1. Applicant's amendment and corrected drawings, filed 10/02/02, are acknowledged.
2. New Claims 31 and 32 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to non-elected species of the elected invention.

Claims 26-30 are pending and being acted upon.

3. Applicant is advised that the substitute specification, filed 1/09/01, has not been entered because no statement indicating that no new matter has been added was attached. If Applicant desires that said substitute specification be entered, Applicant is advised to so indicate in the next response and include a statement that no new matter has been added.
4. Applicant is advised that all previous rejections have been withdrawn. Accordingly, Applicant's arguments have been rendered moot.
5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:
A person shall be entitled to a patent unless --
(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
6. Claims 26-30 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Schwarz et al. (1995).

Schwarz et al. teaches a culture device for inducing activation of immunosuppressive human T cells (see particularly page 5814, column 1, fifth paragraph). The reference further teaches that both α CD2 TS2/18 and α CD3 OKT3 antibodies were added to the culture device before the addition of cells (see particularly page 5814, column 1, fifth paragraph and Figure 3), thus the device of the reference meets all of the limitations of the instant claims, i.e., a culture device for inducing activation of immunosuppressive cells, said device being coated with both α CD2 TS2/18 and α CD3 antibodies

The reference clearly anticipates the claimed invention.

6. No claim is allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (703) 308-9805. The examiner can normally be reached Monday through Thursday from 7:30 am to 5:30 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196 or the Customer Service Center at (703) 308-0198.

Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone numbers are 703-872-9306 (before final) and 703-872-9307 (after final).
